

MS IN FINANCE

STUDY FINANCE | Embrace the rapid evolution of finance, learn how to use new strategies, data tools and technologies, and grow your professional network. Advance your career with CEU's MS in Finance, a program guided by industry experts.

The program combines an industry-driven finance curriculum with data analytics, technology skills and legal studies. Learn from leading professors and industry veterans, and develop your applied skills through real-life business cases and simulations. Top it up with our MS in Technology Management and Innovation program to become a fintech leader or launch your startup in the CEU InnovationsLab incubator.

JOIN A GLOBAL COMMUNITY | Ranked the 2nd most international university in the world, Central European University (CEU) brings together students and faculty from 115 countries to exchange ideas in an open and dynamic community in Budapest. The international faculty of CEU's Department of Economics and Business specializes in economics, econometrics, finance and business, providing an ideal learning environment for analysts, decision-makers and managers.

BOOST YOUR CAREER | Budapest ranks among the EU's fastest rising financial services and technology hubs, and the best places to live for expats. Global employers competing for international finance talent include the Bank of China, BCG, BlackRock, Citi, ExxonMobil, GE, IBM, McKinsey, Morgan Stanley, MSCI, PwC and Vodafone. Students can start a job or an internship at any time thanks to the program's full-time / part-time structure. More than 90% of students land a job even before graduation.

Extend your MS in Finance studies by joining an international exchange program. Exchanges are free of tuition and may vary from one week to an additional semester. Please contact us for a list of our partner schools on four continents.

BECOME AN INNOVATOR | Be it a new technology, product, service or solution to a pressing social problem, CEU's award-winning in-house business incubator, the CEU InnovationsLab, translates great ideas into successful enterprises. It offers tailor-made workshops held by distinguished faculty, seasoned professionals and industry experts. Flagship success stories include Talk-A-Bot, a pioneering chatbot agency, and AbsoRice, a game-changing protein supplement manufacturer.

"The program provides a holistic and intensive training in finance. Students are equipped with skills and knowledge that offer a major competitive edge in today's job market. CEU is also as much about diversity as it is about academic excellence. I thoroughly enjoyed my experience with CEU, which has developed into a lifelong relationship."

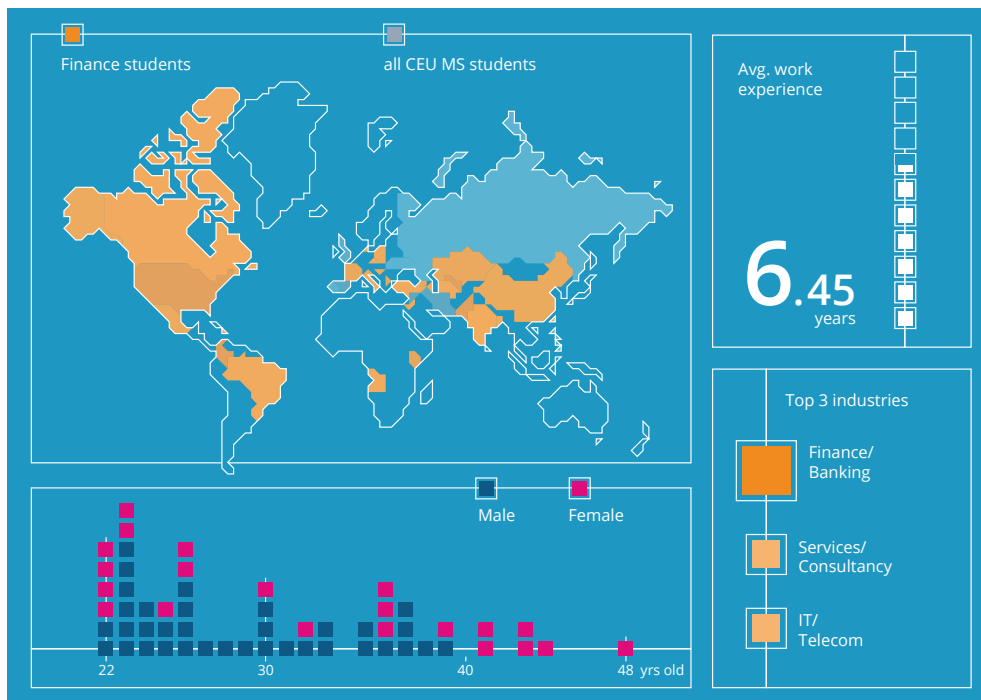

Takaomi Yoshimoto
Morgan Stanley
